

You can see the issues we found below in the Summary of each section and on individual Step pages.

APPLICATION OVERVIEW DOCUMENT

UPlus Hotels TMCS

Congratulations on completing your application definition! This document presents a summary overview of your application as defined in the Pega platform. It encapsulates the key elements of your application's design, highlighting its core functionalities and overall structure.

Please note that this is a high-level view and does not include granular details like data models or sample data. It's an ideal resource for a quick reference, facilitating discussions among team members and stakeholders, and for guiding strategic decisions in your application development process.

Blueprint ID: BP-2316091

Application Context

Travel Management Customer Support application for managing guest complaints and hotel partner onboarding.

Organization name	Industry	Industry subsegment	Language
Bannari Amman Institute of Technology	Consumer Services	Other	English

Application Architecture

Users access the application through defined channels, assume specific roles, and trigger workflows that manage how work progresses. Those workflows operate on shared Data Objects to ensure the system stays consistent and up to date.
